Organising Secretary

We have great pleasure in welcoming you all for **POSICON 2020** at Coimbatore from **9th to 12th, January, 2020**. The conference theme has been rightly chosen as "Challenges in 2020" which would be interesting for each one of us, to share the challenges and look at the possibilities to navigate through the future. We have eminent International and National faculties who with their wealth of experience will discuss the various challenges faced in our day-to-day practice of paediatric orthopaedics.

For the first time in the history of **POSICON**, we have planned **Live Surgery Workshops** for two days in **six different sub-specialties of Paediatric Orthopaedics**. This would give ample opportunity for the delegates to learn the practical tips and tricks directly from the masters. The scientific programme of the main conference is being planned with lot of interactive sessions and sessions on current challenges and it would be an academic event to update ourselves in various aspects of this specialty.

Academics apart, Coimbatore is a vibrant city with a pleasant weather throughout the year and lot of tourist attractions around the city. It is located at the foothills of Nilgiri mountain range and is the gateway to the famous backwaters of Kerala. Also, the Kongu region is popular for its traditional South Indian cuisine and warm hospitality. This conference would be a perfect blend of academics and non-academics. It has been our tradition to 'promise less and deliver more' and we eagerly look forward to you at Coimbatore to experience a unique and memorable POSICON 2020.
